Safety Data Sheet

Revision Date: 6/29/2015

BB70 Boat Bright

Section 1. Product and Company Identification

Product Identifier BB70 Boat Bright

Product Use Description: Bright Green, turbid liquid with sweet odor for use as a gloss enhancer for Boat Hard surface surfaces

Manufacturer or suppliers' details

Babes Boat Products
1097 Hewitt Dr.
San Carlos, CA 94070

Emergency Number: 800-255-3924
Customer Service: 808-682-9274
Business Fax:

Section 2. Hazards Identification

GHS Classification

Not a Hazardous Substance or Mixture

GHS Label Elements

Hazard pictograms

Hazard Word No Hazardous ingredients at concentration requiring notification

Hazard Statements

none

Precautionary Statements

If eye irritation occurs get medical advice/attention
IF SKIN IRRITATION OCCURS:
Get medical advice/attention

Safety Data Sheet

Revision Date: 6/29/2015

BB70 Boat Bright

3. Composition Information on Ingredients

| CAS Number | Wt % | Component Name |
|------------|------|----------------------------------|
| | | None above reportable percentage |

Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non-hazardous, and/or present at amounts below reportable limits.

4. First Aid Measures

Eye: Immediately flush with water. If any irritation or discomfort occurs, consult physician

Skin: No first aid should be needed. Thoroughly wash the affected area as a precaution.

Inhalation: Inhalation of any liquid should be considered potentially dangerous, consult a physician.

Oral: No first aid should be needed for oral contact. If product is swallowed, consult physician.

Comments: Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media:

On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO₂), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures:

Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire Hazards:

None.

Hazardous Decomposition Products

Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde. Metal oxides.

6. Accidental Release Measures

Observe all personal protection equipment recommendations described in Sections 5 and 8. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.

Clean up remaining materials from spill with suitable absorbant. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard.

Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain federal and state requirements.

7. Handling and Storage

Use with adequate ventilation. Avoid eye contact.

Use reasonable care and store away from oxidizing materials.

8. Exposure Controls and Personal Protection

None above reportable percentage

Engineering Controls

Local Ventilation: None should be needed.

General Ventilation: Recommended.

Personal Protective Equipment for Routine Handling

Eyes: Use proper protection - safety glasses as a minimum.

Skin: Washing at mealtime and end of shift is adequate.

Suitable Gloves: No special protection needed.

Inhalation: No respiratory protection should be needed.

Suitable Respirator: None should be needed.

Precautionary Measures: Avoid eye contact. Use reasonable care.

Comments: When heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose, throat, skin, and digestive system.

Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for formaldehyde.

Safety Data Sheet

Revision Date: 6/29/2015

BB70 Boat Bright

9. Physical and Chemical Properties

| | | | |
|------------------------------|----------------|--------------------------------|----------------|
| Flash Point | None | Upper Flamability Limit | Not Determined |
| Auto Ignition | Not Determined | Lower Flamability Limit | Not Determined |
| Physical State | Liquid | Color | Bright Green |
| pH | 6.8 | Vapor Press | Not Determined |
| Specific Gravity | 0.98 | Viscosity | 2 cSt |
| Vapor Density (Air=1) | Not Determined | Melting Point °F | 28°F |
| Water Solubility | Dispersable | Odor | Sweet |
| | | VOC Content | <1% |

10. Stability and Reactivity

| | | | |
|---|--|---------------------------------|-----------------------|
| Stability | Stable | Hazardous Polymerization | Not Expected to Occur |
| Conditions to Avoid | Oxidizing materials can cause a reaction | | |
| Hazardous Decomposition Products | When heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors. Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for formaldehyde. | | |

11. Toxicological Information

Acute oral toxicity : Acute toxicity estimation LD50> 100,000 mg/Kg Calculation Method

12. Ecological Information

Toxicity : Acute toxicity estimation EC50> 50,000 mg/Kg (Calculation Method 3.1.3.6.1) 48 hr

13. Disposal Considerations

RCRA Hazard Class (40 CFR 261)

When a decision is made to discard this material, as received, is it classified as a hazardous waste? No
State or local laws may impose additional regulatory requirements regarding disposal.

14. Transportation Information

Not subject to DOT. Not regulated

Not subject to IMDG code.

Not subject to IATA regulations

15. Regulatory Information

TSCA Status: All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

Safety Data Sheet

Revision Date: 6/29/2015

BB70 Boat Bright

EPA SARA Title III Chemical Listings

Section 302 Extremely Hazardous Substances (40 CFR 355): None.

Section 304 CERCLA Hazardous Substances (40 CFR 302): None.

Section 311/312 Hazard Class (40 CFR 370):

Acute: No

Chronic: No

Fire: No

Pressure: No

Reactive: No

Section 313 Toxic Chemicals (40 CFR 372): None present or none present in regulated quantities.

16. Other Information

Revision Date 6/29/2015

The information and recommendations are offered for the user's consideration and examination, and it is the user's responsibility to satisfy itself that they are suitable and complete for its particular use. If buyer repackages this product, legal counsel should be consulted to insure proper health, safety and other necessary information is included on the container.

BB80 - Seat Soap

If eye irritation persists get medical advice/attention
IF SKIN IRRITATION OCCURS:
Rinse skin with water/shower
If skin irritation or a rash occurs: Get medical advice/attention

3. Composition Information on Ingredients

| CAS Number | Wt % | Component Name |
|----------------------|------|---------------------------------------|
| 61788-90-7/1643-20-5 | 2-5% | Amines, Coco Alkyldimethyl, N- Oxides |

Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non-hazardous, and/or present at amounts below reportable limits.

4. First Aid Measures

Eye: Immediately flush with water. If any irritation or discomfort occurs, consult physician

Skin: No first aid should be needed. Thoroughly wash the affected area as a precaution.

Inhalation: Inhalation of any liquid should be considered potentially dangerous, consult a physician.

Oral: No first aid should be needed for oral contact. If product is swallowed, consult physician.

Comments: Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media:

On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO₂), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures:

Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire Hazards:

None.

Hazardous Decomposition Products

Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds. Silicon dioxide. Formaldehyde. Metal oxides.

Safety Data Sheet

Revision Date: 6/29/2015

BB80 - Seat Soap

6. Accidental Release Measures

Determine whether to evacuate or isolate the area according to your local emergency plan. Observe all personal protection equipment recommendations described in Sections 5 and 8. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbant. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

7. Handling and Storage

Use with adequate ventilation. Avoid eye contact.

Use reasonable care and store away from oxidizing materials.

8. Exposure Controls and Personal Protection

61788-90 Amines, Coco Alkyldimethyl, N- Oxides
