

2023 NORTHERN Management Area Recreational Groundfish Regulations Summary^{1, 2}

Ocean waters between 42°00' N. latitude (CA-OR Border) and 40°10' N. latitude (near Cape Mendocino)

These regulations are subject to in-season change. It is the reader's responsibility to know and abide by all regulations in effect at the time of fishing activity. Check for [current regulations](#) prior to fishing.

Bold Red Text shows regulations that have changed for 2023.

- Certain areas within the management area may further prohibit or restrict fishing (e.g. [marine protected areas](#)).
- **TRANSIT PROVISION:** Groundfish species or species groups that are closed to take and/or possession in part of a groundfish management area (state and federal Marine Protected Areas, or other closure areas) may be possessed aboard a vessel in transit through the closed area with no fishing gear deployed in the water (§27.20(b)(1)(A)).
- **Regulations for California sheephead and ocean whitefish are now located on the CDFW [Sportfishing Regulations website](#)**

1. Certain areas may prohibit or restrict fishing, including State and federal Marine Protected Areas (MPAs) or other State and federal conservation areas. Check CDFW's website at wildlife.ca.gov/Conservation/Marine/MPAs for MPAs, or the [Ocean Sportfishing Interactive Web Map](#) for MPAs and other closures.

2. Divers and shore-based anglers are exempt from season and depth restrictions affecting the RCG complex and other federally managed groundfish (sections 27.20(b)(1)(C) and 27.20(b)(1)(D)). Shore-based anglers are fishermen that fish from beaches, banks, piers, jetties, breakwaters, docks, and other manmade structures connected to the shore. Divers are spear fishermen entering the water either from the shore or from a boat or other floating object. The possession and transit provisions described for shore-based anglers, and divers are as follows:

- When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore), all species may be taken and/or possessed year-round (See subsection 27.50(b)(1) for exceptions in the Cowcod Conservation Areas). No vessel or watercraft (motorized or non-motorized) may be used to assist in the take, transport and/or possession of these species under this provision.
- When diving or spearfishing, as authorized in Section 28.90, all species may be taken and/or possessed year-round (See subsection 27.50(b)(2) for exceptions in the Cowcod Conservation Areas). When boat-based groundfish fishing is closed, all types of fishing gear, except spearfishing gear, are prohibited to be aboard the vessel or watercraft (motorized or non-motorized) when taking and/or possessing these species under this provision.

3. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail (Section 1.62). A measurement method illustration is available in the current Ocean Sport Fishing Regulations booklet, available on the CDFW website.

4. For the purpose of these regulations, the definition of fillet is the flesh from one side of a fish extending from the head to the tail which has been removed from the body (head, tail, and backbone) in a single continuous piece (Section 27.65(a)). No person shall fillet on any boat or bring ashore as fillets any fish except in accordance with requirements established in Section 27.65(b)). See regulations for information on gear restrictions (Sections 28.65, 28.70, 28.90, 28.91, and 28.95) and species-specific fillet regulations (Section 27.65).
